

# Jaspal Singh Kahlon

San Antonio, TX

210-269-8255 | kahlonjaspalwork@gmail.com | LinkedIn | GitHub | Portfolio

## SUMMARY

---

Computer Science senior and UX/product researcher with fintech and AI/ML research experience across customer discovery, generative research, usability evaluation, Agile product teams, and stakeholder synthesis. Experienced developing interview guides, identifying user pain points, translating quantitative and qualitative findings into actionable recommendations, and collaborating with product, design, and engineering partners to improve digital workflows in regulated environments.

## SKILLS

---

**UX Research:** User Interviews, Interview Guides, Customer Discovery, Generative Research, Usability Testing, Competitive Benchmarking, Gap Analysis, Research Synthesis, Research Readouts, Stakeholder Presentations, Human-Centered Design, Inclusive Research, Accessibility Awareness, WCAG/Section 508 Familiarity

**Product & Delivery:** Agile/Scrum, Cross-Functional Collaboration, User Stories, Acceptance Criteria, Backlog Refinement, Product Requirements, Workflow Analysis, Documentation

**Tools & Technical:** Figma, Miro, Jira, Confluence, Notion, Zoom, GitHub, Python, Java, JavaScript, HTML/CSS, React Native, Expo, AWS, Git

## EXPERIENCE

---

### Frost Bank

*UX Research & Product Strategy Intern*

San Antonio, TX

*March 2025 – Present*

- Supported SMB digital banking research by developing interview guides, defining target customer criteria, and partnering with relationship managers and community bankers to surface customer pain points, platform expectations, and workflow friction.
- Synthesized customer research, competitive analysis, and platform gap findings into clear insights, research artifacts, and product recommendations for Business Connect migration and digital banking workflow improvements.
- Benchmarked 13+ national, regional, and digital-first banks to identify digital experience gaps, compare SMB banking workflows, and surface opportunities for improved usability, onboarding, customer support, and platform clarity.
- Influenced SMB product conversations on platform fit and migration criteria through research readouts to product, UX, business banking, and design stakeholders, including Agile/Scrum contributions to user stories, acceptance criteria, and backlog refinement.
- Connected user flows, wireframes, and interface rationale to customer problems and expected behavior, helping product, UX, and engineering teams align on digital banking feature requirements.

### National Science Foundation (NSF S-STEM)

*Lead Researcher & Developer, Inverte-Quest*

San Antonio, TX

*Aug 2024 – Present*

- Led user-centered research and product design for an AI-assisted field identification tool by mapping student, teacher, and researcher workflows, defining MVP scope around field-condition usability constraints, and translating ML model behavior into trust-calibrated interface decisions across iOS, Android, and web.
- Sustained NSF S-STEM sponsor alignment through formal stakeholder presentations communicating research findings, design rationale, and product roadmap direction.

### Texas A&M University–San Antonio Honors Program

*Honors Scholar Research Assistant, Potr-Aid*

San Antonio, TX

*Sept 2024 – May 2025*

- Evaluated an AI-assisted photography product by analyzing precision, recall, and F1 across a 60,000+ image dataset, identifying model failure patterns, and translating quantitative findings into qualitative usability and trust recommendations published in honors research.

## PROJECTS

---

### **Promising Products – HackUTD Winner**

*User-Centered Product Recommendation Experience*

- Won HackUTD by leading user research and product design on a customer recommendation experience, analyzing 150,000+ customer records to identify behavioral patterns and translate them into actionable product directions, judged best-in-show against competing teams.

## EDUCATION

---

### **Texas A&M University–San Antonio**

*Bachelor of Science in Computer Science*

San Antonio, TX

*Expected May 2026*
